

# Ride the wave!

Welcome to the 10th Annual COA Convention! The convention theme this year is “*Ride the Wave,*” as in ride the wave of change. Over the past year and a half we have seen greater involvement and a call for member participation in the governance and direction for the future. The 10th Annual Convention is an extension of that call to action by involving all affiliate organizations to participate in the planning of the convention and set the agenda. As a result you will notice more opportunities for professional development and sessions to address common issues that affect us all. The waves of change are coming – will you be ready? The State has provided significant professional development funds this year and it is a great time to take advantage. Come join your colleagues in Ontario, California for what promises to be our biggest and best convention ever!

Carlyle Carter  
COA Executive Director
